# PLAYING WITH FIRE

**THE PLACE:** It started in 1981 when David Malcolm first launched a side business in the family garage called "Nestleton Stove Works." A few years later, David left his factory job and began to sell, install and service wood stoves and fireplaces full time. He quickly moved out of the garage and into his first location in Port Perry. In the 10 years that followed, the business expanded tenfold to include several locations that he still manages today.

**THE STYLE:** With a large array of fireplaces, outdoor products and brand names like Napoleon, Jøtul and Big Green Egg, the Malcolm family's combined experience and family-friendly approach has been serving the local community for over 30 years. David's five sons and one daughter were raised on fire. Although they all branched out and gained an education in other disciplines, they've each made their way back to the family business. "We could sell fire to the devil himself if he ever came around," says David.

**WHAT'S HOT:** Sleek and beautiful, the Napoleon Prestige PRO™ Series Gas Grill is a fan favourite on the block. The grill comes equipped with eight burners, a large cooking surface, an integrated smoking tray and a ceramic infrared side burner to make sauces, boil or sauté. As dusk approaches, the control knobs glow a brilliant blue with an innovative new NIGHT LIGHT™ system. It's backyard nirvana. Love the smoky goodness of a retro charcoal barbecue? The Big Green Egg is a grill, smoker and oven all in one. The
